

Project Initialization and Planning Phase

Date	29 September 2026
Team ID	6ab4fddea238dc999eb665e9
Project Name	PocketSmart AI: Your Smart Budget & Recommendation Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statements

Problem Statement	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer planning a home interior.	Plan my home interior within my budget.	I find it difficult to decide which furniture and other items to choose without exceeding my budget.	There are many products and choices available across different platforms.	Confused and worried about spending too much.
PS-2	A person planning a party or event.	Organize my party within a fixed budget.	It is difficult to divide my budget between food, venue, decoration and entertainment.	Different expenses have to be planned separately and prices vary between services.	Stressed about managing the total cost.
PS-3	A customer looking for jewelry.	Find jewelry that matches my budget, occasion and personal preference.	I have difficulty finding suitable jewelry from many available choices.	Online platforms provide many products but do not always give personalized recommendations based on my needs.	Unsure about which jewelry to choose.
PS-4	A customer who wants jewelry matching an outfit.	Find jewelry that matches my outfit and style.	It is difficult to judge which jewelry will look suitable with my outfit just by browsing products.	I need to compare many products manually and may not know which styles match.	Frustrated and uncertain about my choice.
