Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Sets a budget and selects a need: Home, Party or Jewelry. - Enters preferences and requirements in PocketSmart AI. - Reviews the generated plan and recommendations.	- Explores AI suggestions based on budget and preferences. - Checks recommended products/services and estimated costs. - Narrows down suitable choices.	- Compares shortlisted options within the budget. - Reviews recommendation details and demo/search links. - Chooses an option matching the need and budget.
Touchpoint <i>What part of the service do they interact with?</i>	- Dashboard and planner selection. - Budget and preference input forms. - Home, Party or Jewelry planning workflow.	- Gemini-powered recommendation engine. - Personalized recommendation results. - Budget validation and recommendation cards.	- Recommendation details page. - External platform/demo/search links. - History of previous recommendations.
Customer Thought <i>What is the customer thinking?</i>	- What should I plan first? - How can I stay within my budget? - What information should I provide?	- Are these suggestions suitable for my needs? - Are the recommendations within my budget? - Can I trust the AI-generated suggestions?	- Which option fits my needs best? - Can I compare these choices easily? - Should I save this recommendation for later?
Customer Feeling <i>What is the customer feeling?</i>	- Unsure about where to start. - Concerned about overspending. - Hopeful for a simple planning process.	- More informed by personalized suggestions. - Curious about the recommended options. - More confident when choices fit the budget.	- Confident about making a final choice. - Satisfied with a clearer budget plan. - Relieved to have manageable options.

Process Ownership <i>Who is in the lead on this?</i>	Customer — provides budget, needs and preferences. PocketSmart AI — manages the planning workflow.	PocketSmart AI / Gemini integration — generates recommendations and validates budget fit.	Customer — evaluates recommendations and makes the final choice.
Opportunities <i>How can we improve this stage?</i>	• Make budget and preference input simple. • Show clear categories and required fields. • Provide an easy starting flow for first-time users.	• Improve personalization using more preferences. • Explain why each recommendation was suggested. • Keep recommendations within the stated budget.
