Date	29 September 2026
Team ID	6ab4fddea238dc999eb665e9
Project Name	PocketSmart AI: Your Smart Budget & Recommendation Assistant
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

1. CUSTOMER SEGMENT(S) [CS] Budget-conscious customers planning home interiors, parties/events, or jewelry purchases who want personalized choices within a fixed budget.	6. CUSTOMER LIMITATIONS EG. BUDGET, DEVICES [CL] Limited budget; too many product/service choices; limited time for comparison; dependence on online information; may have difficulty judging jewelry–outfit matching.	5. AVAILABLE SOLUTIONS PROS & CONS [AS] Online shopping/search platforms and manual comparison. Pros: many choices and price information. Cons: choices are scattered and recommendations are not personalized to the user's complete budget and preferences.
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] Users struggle to divide a fixed budget and choose suitable products/services. This can occur whenever they plan a home interior, party, or jewelry purchase.	9. PROBLEM ROOT / CAUSE [RC] Large number of choices, fragmented information across platforms, changing prices, and lack of a single assistant that combines budget planning with personalized recommendations.	7. BEHAVIOR + ITS INTENSITY [BE] Users set a budget, browse multiple options, compare prices and repeatedly search for suitable products. The behavior becomes more intense for larger purchases or important events.
3. TRIGGERS TO ACT [TR] Starting a home setup, planning a party/event, preparing for an occasion, buying jewelry, or needing a recommendation that fits a specific budget and preference.	10. YOUR SOLUTION [SL] PocketSmart AI: a FastAPI-based GenAI assistant that plans budgets and generates personalized recommendations for Home Interior, Party Planning and Jewelry, with optional outfit-image analysis.	8. CHANNELS OF BEHAVIOR [CH] ONLINE Web browsers, e-commerce/search platforms and digital recommendation interfaces. OFFLINE Physical shopping, local event/vendor discussions and personal product comparisons.
