

Demonstration of Proposed Features

Date	29 September 2026 – 2 October 2026
Team ID	6ab4fddea238dc999eb665e9
Project Name	PocketSmart AI: Your Smart Budget & Recommendation Assistant
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures the features proposed for PocketSmart AI during the project planning phase and records whether each feature was implemented and demonstrated. It provides evidence that the team delivered the planned budget-aware planning and recommendation workflows.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	AI-Based Budget Planning	Create a budget-aware plan that divides a user's total budget across relevant needs.	Implemented	Yes	Core budget planning workflow with backend budget validation.
2	Personalized AI Recommendations	Suggest suitable products or services based on budget, preferences and planning requirements.	Implemented	Yes	Gemini-powered structured recommendations with demo fallback.
3	Home Interior Planner	Recommend rooms, lighting, ceiling fans, furniture/table quantities and preferences within budget.	Implemented	Yes	Home planner generates allocation, items, prices and remaining budget.
4	Party Budget Planner	Divide a party budget across guests, venue, catering, decoration and entertainment.	Implemented	Yes	Party planner provides category-wise budget-aware recommendations.
5	Jewelry Recommendation	Suggest jewelry according to occasion, style, outfit description and user budget.	Implemented	Yes	Jewelry planner generates occasion/style-aware recommendations.
6	Multimodal Outfit Analysis	Allow an outfit image upload and use the visual context to support matching jewelry suggestions.	Implemented	Yes	Optional JPG/PNG/WEBP image analysis is supported in the Jewelry planner.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
