

Project Demo Planning

Date	29 September 2026 – 2 October 2026
Team ID	6ab4fddea238dc999eb665e9
Project Name	PocketSmart AI: Your Smart Budget & Recommendation Assistant
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that PocketSmart AI is presented effectively, covering the main application workflow and key implemented features in a clear and organized manner. All demo sections are assigned to Logesh.S, with the demonstration organized as a folder-based overview.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	01_Account_Creation	Folder overview: demonstrate the web app account creation flow, including Register, user details submission and successful account creation.	2	Logesh.S
2	02_Home_Budget_Planner	Folder overview: demonstrate the Home Budget Planner working flow, including budget input, home requirements, generated allocation, items, prices and remaining budget.	4	Logesh.S
3	03_Party_Budget_Planner	Folder overview: demonstrate the Party Planner with budget, guests, event type, venue, catering, decoration and entertainment inputs.	3	Logesh.S
4	04_Jewelry_Budget_Planner	Folder overview: demonstrate the Jewelry Planner using occasion, style, outfit description and budget; show the recommendation result.	3	Logesh.S
5	05_Jewelry_Image_Analysis	Folder overview: demonstrate the optional outfit-image upload using supported JPG/PNG/WEBP input and show the resulting jewelry recommendation context.	2	Logesh.S
6	06_History_and_Recommendation_Details	Folder overview: demonstrate saved recommendation history and opening a recommendation detail page after completing a planner workflow.	2	Logesh.S

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for budget-aware planning and personalized recommendations.
2	Solution Overview	Show PocketSmart AI architecture at a high level: authentication, planners, Gemini recommendations and history.
3	Live Feature Demonstration	Open the web app, create an account, demonstrate Home Budget Planner first, then briefly cover Party, Jewelry, image analysis and History.
4	Q&A Session	Logesh.S answers questions and explains the demonstrated workflow, implementation and known limitations.
